

THE AMERICAN JOURNAL OF
TROPICAL MEDICINE AND HYGIENE

VOLUME 32

SEPTEMBER 1983

NUMBER 5

CONTENTS

Retinal hemorrhage, a common sign of prognostic significance in cerebral malaria.— Sornchai Looareesuwan, David A. Warrell, Nicholas J. White, Pornthep Chanthavanich, M. J. Warrell, Sathien Chantaratherakitti, Sucheep Changswek, Lertrit Chongmankong-cheep, and Charimet Kanchanaranya	911
Field evaluation in Kenya of a 48-hour in vitro test for <i>Plasmodium falciparum</i> sensitivity to chloroquine.— Harrison C. Spencer, S. Chemengay Masaba, Jeffrey D. Chulay, and Phuc Nguyen-Dinh	916
Chloroquine resistance in <i>Plasmodium falciparum</i> from Kenyan infants.— Harrison C. Spencer, Daniel M. Kariuki, and Davy K. Koech	922
Immunity to malarial antigens on the surface of <i>Plasmodium falciparum</i> -infected erythrocytes.— Kamini N. Mendis, Peter H. David, Marcel Hommel, Richard Carter, and Louis H. Miller	926
Cryptosporidiosis in hospital patients with gastroenteritis.— Saul Tzipori, Megan Smith, Chris Birch, Graham Barnes, and Ruth Bishop	931
Seroepidemiological survey of toxoplasmosis in La Guadeloupe, French West Indies.— Dominique Barbier, Thierry Ancelle, and Gilbert Martin-Bouyer	935
An enzyme-linked immunosorbent assay (ELISA) for field diagnosis of visceral leishmaniasis.— M. Ho, J. Leeuwenburg, G. Mbugua, A. Wamachi, and A. Voller	943
Activity of oral drugs against <i>Leishmania tropica</i> in human macrophages in vitro.— J. D. Berman and L. S. Lee	947
Infection and replication of <i>Leishmania tropica</i> in mouse peritoneal macrophages elicited by sterile inflammatory agents and BCG.— Michael G. Pappas	952
Ketoconazole protects against infection with <i>Trypanosoma cruzi</i> in a murine model.— Robert E. McCabe, Fausto G. Araujo, and Jack S. Remington	960
Primary isolation of <i>Trypanosoma cruzi</i> by hemoculture: Influence of glucose concentration.— Inés Albesa and Alberto Jorge Eraso	963
Experimental chronic <i>Trypanosoma brucei rhodesiense</i> infection in <i>Microtus montanus</i> .— J. M. Bafort and H. Schmidt	968
The partial purification and characterization of adenosine kinase from <i>Entamoeba histolytica</i> .— Patricia A. Lobelle-Rich and Richard E. Reeves	976
Treatment of trichinosis with mebendazole.— Michael L. Levin	980
Albendazole, an effective single dose, broad spectrum anthelmintic drug.— Shivaji Ramalingam, B. Sinniah, and Uma Krishnan	984
Cellular responses in human strongyloidiasis.— Robert M. Genta, Eric A. Ottesen, Frank A. Neva, Peter D. Walzer, Herbert B. Tanowitz, and Murray Wittner	990
<i>Mammomonogamus</i> infection in a human. Report of a case.— C. H. Gardiner and Peter M. Schantz	995
Pinworm prevalence in California elementary school children, and diagnostic methods.— Edward D. Wagner and William C. Eby	998
Effects of serum from treated patients on antibody-dependent cell adherence to the infective larvae of <i>Brugia malayi</i> .— Betty K. L. Sim, J. W. Mak, and B. H. Kwa	1002
Assessment of <i>Leptoconops bequaerti</i> as a potential vector of <i>Mansonella ozzardi</i> in Haiti.— Robert C. Lowrie, Jr., Christian P. Raccurt, Mark L. Eberhard, and Stephen P. Katz	1013
Acanthocephalan, probably <i>Bolbosoma</i> , from the peritoneal cavity of man in Japan.— P. C. Beaver, Tatsushi Otsuji, Akinobu Otsuji, Hiroyuki Yoshimura, Ryuichi Uchikawa, and Atsuo Sato	1016

Human infection with the pancreas fluke, <i>Eurytrema pancreaticum</i> .—Yoichi Ishii, Masataka Koga, Takahiro Fujino, Hiroo Higo, Junko Ishibashi, Kazunari Oka, and Susumu Saito	1019
Studies on schistosomiasis in Taiz Province, Yemen Arab Republic.—Yassin A. Hazza, Ferey-doun Arfaa, and Mohammed Haggar	1023
Control of schistosomiasis in large irrigation schemes by use of niclosamide. A ten-year study in Zimbabwe.—A. C. Evans	1029
Survival of <i>Schistosoma mansoni</i> in the human host: Estimates from a community-based pro-spective study in Puerto Rico.—Sten H. Vermund, David J. Bradley, and Ernesto Ruiz-Tiben	1040
Effect of chemotherapy on experimental pulmonary schistosomiasis.—Marco Antonio Cardoso de Almeida and Zilton A. Andrade	1049
Efficacy of amoscanate against experimental schistosomal infections in monkeys.—Karen A. Crawford, Harold L. Asch, John I. Bruce, Ernest Bueding, and Emil R. Smith	1055
Observations on cattle schistosomiasis in the Sudan, a study in comparative medicine. IV. Pre-liminary observations on the mechanism of naturally acquired resistance.—H. O. Bushara, M. F. Hussein, Miriam A. Majid, B. E. H. Musa, and M. G. Taylor	1065
Mebendazole treatment of <i>Echinococcus granulosus</i> infection. Report of a case.—Eskild Peter-sen, Gunnar Thorén, and Robert Bergquist	1071
Hydatid disease in Greek children.—N. Matsaniotis, Th. Karpathios, J. Koutoyzis, P. Nico-laidou, A. Fretzayas, F. Papadellis, and Th. Thomaidis	1075
Immunodiagnosis of human hydatid disease: Applications and contributions to a control program in Argentina.—V. M. Varela-Díaz, E. A. Coltorti, O. de Zavaleta, H. Pérez-Caviglia, E. I. Zabert, and E. A. Guarnera	1079
Invasion of liver parenchymal cells by <i>Mycobacterium leprae</i> in an experimentally infected nude mouse. An electron microscopic study.—C. K. Job, S. Chehl, R. C. Hastings, and J. R. Ruby	1088
Antibiotic treatment of louse-borne relapsing fever in Ethiopia: A report of 377 cases.—Peter L. Perine and Bayu Teklu	1096
Diagnostic criteria for scrub typhus: Probability values for immunofluorescent antibody and Pro-teus OXK agglutinin titers.—Grahaem W. Brown, Akira Shirai, Cynthia Rogers, and Michael G. Groves	1101
Transovarial transmission of dengue viruses by mosquitoes: <i>Aedes albopictus</i> and <i>Aedes aegypti</i> .—Leon Rosen, Donald A. Shroyer, Robert B. Tesh, Jerome E. Freier, and Jih Ching Lien	1108
The House Sparrow (<i>Passer domesticus</i>) as a sentinel for St. Louis encephalitis virus.—R. G. McLean, J. Mullenix, J. Kerschner, and J. Hamm	1120
Effect of temperature of extrinsic incubation on the vector competence of <i>Culex tarsalis</i> for western equine encephalomyelitis virus.—Laura D. Kramer, James L. Hardy, and Sally B. Presser	1130
Quantitation of La Crosse virus in venereally infected <i>Aedes triseriatus</i> .—Laura D. Kramer and Wayne H. Thompson	1140
Experimental infection of chipmunks and snowshoe hares with La Crosse and snowshoe hare viruses and four of their reassortants.—Charles Seymour, Terry E. Amundson, Thomas M. Yuill, and David H. L. Bishop	1147
The effect of laboratory colonization on the vector-pathogen interactions of Egyptian <i>Culex pipiens</i> and Rift Valley fever virus.—Thomas P. Gargan, II, Charles L. Bailey, Glen A. Higbee, Adel Gad, and Sherif El Said	1154
Characterization of eight new Phlebotomus fever serogroup arboviruses (Bunyaviridae: <i>Phlebo-virus</i>) from the Amazon region of Brazil.—Amelia P. A. Travassos da Rosa, Robert B. Tesh, Francisco P. Pinheiro, Jorge F. S. Travassos da Rosa, and Norman E. Peter-son	1164
Antigenic characterization of Tettngang virus: Complications caused by passage of the virus in mice from a colony enzootically infected with mouse hepatitis virus.—Abigail L. Smith, Jordi Casals, and Andrew J. Main	1172

BRIEF COMMUNICATIONS

Absence of α -glycerophosphate dehydrogenase in axenically grown <i>Entamoeba histolytica</i> .— Richard E. Reeves and Patricia Lobelle-Rich	1177
Customs which predispose to Chagas' disease and cysticercosis in Mexico.— Paz Maria Salazar-Schettino	1179
Cambendazole in the treatment of human strongyloidiasis.— Sérgio A. Bicalho, Osmar Jorge Leão, and Quirino Pena, Jr.	1181
Human pulmonary granulomas caused by <i>Chrysosporium parvum</i> var. <i>crescens</i> (<i>Emmonsia crescens</i>).— Eduardo Alves Bambirra and Ana Margarida M. F. Nogueira	1184
Rotavirus infection in Brazilian children with acute enteritis: A seasonal variation study.— José R. R. Coiro, M. Mercedes de A. Bendati, Alcides J. de Almeida Neto, M. Cristina F. Heuser, and Vera L. Vasconcellos	1186
Books received	1189
Book reviews: <i>Advances in International Maternal and Child Health</i> , Volume 2, edited by J. B. Jelliffe and E. F. P. Jelliffe; <i>Neuropathology of Parasitic Infections</i> , by W. Jann Brown and Marietta Vogt; <i>Cholera: The American Scientific Experience 1947-1980</i> , by W. E. van Heyningen and John R. Seal; <i>Viral Infections of Humans. Epidemiology and Control</i> , 2nd edition, edited by Alfred S. Evans; <i>Western Equine Encephalitis in Manitoba</i> , edited by L. Sekla; <i>Manson's Tropical Diseases</i> , 18th edition, by P. E. C. Manson-Bahr and F. I. C. Apter; <i>International Perspectives on Neglected Sexually Transmitted Diseases</i> , edited by K. K. Holmes and P-A. Mardh	1190
Correspondence	1194

Number 4 (July) of Volume 32 was mailed to subscribers on 29 July 1983
