

THE AMERICAN JOURNAL OF
TROPICAL MEDICINE AND HYGIENE

VOLUME 39

NOVEMBER 1988

NUMBER 5

CONTENTS

- ELISA-U: An enzyme-linked immunosorbent assay using urease as the enzyme marker for rapid detection of *Plasmodium falciparum* antibody in human serum.—Melinda Lee and Chris Lambros 421
- Common surface epitope of *Bartonella bacilliformis* and *Chlamydia psittaci*.—Jürgen Knobloch, Ralf Bialek, Günther Müller, and Peter Asmus 427
- Detection of *Leishmania* within sand flies by kinetoplast DNA hybridization.—William O. Rogers, Paulo F. Burnheim, and Dyann F. Wirth 434
- Amebic liver abscess and circulating immune complexes of *Entamoeba histolytica* proteins.—Brij Mohan Gandhi, Mohammad Irshad, Subrat Kumar Acharya, and Badri Nath Tandon 440
- Antibody response and antigen recognition in human infection with *Trypanosoma cruzi*.—Dennis Israelski, Robert Sadler, and Fausto G. Araujo 445
- Morphometric and histological analysis of the superior cervical ganglion in experimental Chagas' disease in rats.—Elizabeth R. S. Camargos and Conceição R. S. Machado 456
- The hypersensitivity response to the adult worm proteinase, SMw32, in *Schistosoma mansoni* infected mice.—Cynthia L. Chappell, D. Chester Kalter, and Marc H. Dresden 463
- Diagnosis of paragonimiasis by immunoblot.—Susan B. Stemenda, Shirley E. Maddison, Elaine C. Jong, and Deborah D. Moore 469
- The development of nonradioactive total genomic probes for strain and egg differentiation in taeniid cestodes.—Kok W. Yap, R. C. Andrew Thompson, and Izabella D. Pawlowski 472
- Mermis nigrescens* (Mermithidae: Nematoda) recovered from the mouth of a child.—George O. Poinar, Jr. and Eric P. Hoberg 478
- Ivermectin in loiasis and concomitant *O. volvulus* and *M. perstans* infections.—Dominique Richard-Lenoble, Maryvonne Kombila, Elizabeth A. Rupp, Elaine S. Pappayliou, Philippe Gaxotte, Christophe Nguiri, and Mohammed A. Aziz 480
- Epidemiology of antimicrobial resistant cholera in Kenya and East Africa.—Mark J. Finch, J. Glenn Morris, Jr., J. Kaviti, Wallace Kagwanja, and Myron M. Levine 484
- Efficacy of trimetrexate, a potent lipid-soluble antifolate, in the treatment of rodent *Pneumocystis carinii* pneumonia.—Joseph A. Kovacs, Carmen J. Allegra, Susan Kennedy, Judith C. Swan, James Drake, Joseph E. Parrillo, Bruce Chabner, and Henry Masur 491
- Antigenic analysis of Chinese strains of spotted fever group Rickettsiae by protein immunoblotting.—Ming-Yuan Fan, Xue Jie Yu, and David H. Walker 497

Microinjection of DNA into <i>Aedes triseriatus</i> ova and detection of integration.— Vicki McGrane, Jonathan O. Carlson, Barry R. Miller, and Barry J. Beaty	502
Failure of a dengue-1 sub-unit vaccine to protect mice against a lethal dengue virus infection.— John G. Aaskov, Linda Williams, Jennifer Fletcher, and Robin Hay	511
Kairi virus identified from a febrile horse in Argentina.— Charles H. Calisher, Julio G. Barrera Oro, Rexford D. Lord, Marta S. Sabattini, and Nick Karabatsos	519

Number 4 (October) of Volume 39 was mailed to subscribers on 27 October 1988
