

THE AMERICAN JOURNAL OF
TROPICAL MEDICINE AND HYGIENE

VOLUME 44

APRIL 1991

NUMBER 4

CONTENTS

An assessment of the biological capacity of a Sacramento Valley population of <i>Aedes melanimon</i> to vector arboviruses.—Truls Jensen and Robert K. Washino	355
The first epidemic of dengue hemorrhagic fever in the People's Republic of China.—Fu-Xi Qiu, Qiu-Qian Chen, Qi-Ya Ho, Wen-Zhou Chen, Zhi-Guo Zhao, and Bi-Wei Zhao	364
Analysis of immunological characteristics of newly isolated strains of <i>Rickettsia tsutsugamushi</i> using monoclonal antibodies.—Yoshiki Tange, Nozomu Kanemitsu, and Yuzuru Kobayashi	371
Experimental toxoplasmosis vaccine tests in Aotus monkeys.—A. Escajadillo and J. K. Frenkel	382
Positive response to sodium antimony gluconate administration in visceral leishmaniasis seropositive patients.—Shahjada Chowdhury, Farida Haque, Abdullah Al-Masum, Abdallah E. Harith, and Enamul Karim	390
Efficacy and toxicity of pentostam against Panamanian mucosal leishmaniasis.—R. E. Saenz, C. G. De Rodriguez, C. M. Johnson, and J. D. Berman	394
Rosette formation by <i>Plasmodium coatneyi</i> -infected red blood cells.—Rachanee Udomsang-etch, Arthur E. Brown, C. Dahlem Smith, and H. Kyle Webster	399
Acridine orange detection of <i>Plasmodium falciparum</i> malaria: relationship between sensitivity and optical configuration.—Gary W. Long, Trevor R. Jones, Leland S. Rickman, Roy Trimmer, and Stephen L. Hoffman	402
Renal pathology in <i>Saimiri</i> monkeys during a vaccine trial using the recombinant circumsporozoite protein of <i>Plasmodium vivax</i> .—Tatsuya Tegoshi, J. Roger Broderson, Motohiro Iseki, Maung Maung Oo, William E. Collins, and Masamichi Aikawa	406
Immune response and <i>Trypanosoma cruzi</i> infection in <i>Trypanosoma rangeli</i> -immunized mice.—Beatriz Basso, Edgardo R. A. Moretti, and Elsa Vottero-Cima	413
Splenic hydatidosis.—Celdran Uriarte, Navarro Pomares, Marijuan Martin, Ais Conde, Novo Alonso, and Moreno-Gonzalez Bueno	420
Immunogenetic susceptibility for post-schistosomal hepatic fibrosis.—M. Hafez, S. Aboul Hassan, H. El-Tahan, F. El-Shennawy, M. Khashaba, Y. Al-Tonbary, Z. El-Morsi, Sh. El-Sallab, I. El-Desoky, A. El-Shazly, and S. Eteba	424
Granulomatous hypersensitivity to <i>Schistosoma mansoni</i> egg antigens in human schistosomiasis. III. In vitro granuloma modulation induced by immune complexes.—Alfredo M. Goes, Giovanni Gazzinelli, Roberto Rocha, Naftale Katz, and Barbara L. Doughty	434

- Ultrasonographical investigation of periportal fibrosis in children with *Schistosoma mansoni* infection: reversibility of morbidity seven months after treatment with praziquantel.—Qurashi Mohamed-Ali, Ekkehard Doehring-Schwerdtfeger, Ibrahim M. Abdel-Rahim, Jens Schlake, Rudiger Kardorff, Doris Franke, Christoph Kaiser, Mamoun Elsheikh, Mohamed Abdalla, Peter Schafer, and Jochen H. H. Ehrich 444**
- Prolonged hypofibrinogenemia and protein C activation after envenoming by *Echis carinatus sochureki*.—John R. Weis, Ralph E. Whatley, James L. Glenn, and George M. Rodgers 452**

Number 3 (March) of Volume 44 was mailed to subscribers on 22 May 1991
