

CONTENTS

JANUARY, No. 1

Atypical Yaws. Paul W. Wilson.....	1
Notes on Intestinal Flora in the Tropics. Edwin O. Jordan and Josephine McBroom.....	27
"Red Back" Spider Bite and Magnesium Sulphate Treatment. A Clinical Study of Four Cases. Cesareo DeAsis.....	33
Quinine and Plasmochin Therapy in Infections with <i>Plasmodium circum- flexum</i> . Reginald D. Manwell.....	45
Nutritional Studies of Foodstuffs Used in the Puerto Rican Dietary. IV. Extract of the Annatto Seed, <i>Biaz orellana</i> : Its Preparation and Phys- iological Properties. D. H. Cook and J. H. Axtmayer.....	61
Transactions of the American Society of Tropical Medicine, Twenty-ninth Annual Meeting, Held at Richmond, Virginia, November 15-17, 1933...	77

MARCH, No. 2

The Cultivation and Cultural Characteristics of Darling's <i>Histoplasma cap- sulatum</i> . W. A. DeMonbreun.....	93
A Case of Histoplasmosis of Darling in an Infant. Katharine Dodd and Edna H. Tompkins.....	127
Flight Range of the Funestus-minimus Subgroup of Anopheles in the Phil- ippines. First Experiment with Stained Mosquitoes. Paul F. Russell and Domingo Santiago.....	139
Relapsing Fever in Texas. II. The Specificity of the Vector, <i>Ornithodoros turicata</i> , for the Spirochete. Hardy A. Kemp, W. H. Moursund, and Harry E. Wright.....	159
Relapsing Fever in Texas. III. Some Notes on the Biological Characteris- tics of the Causative Organism. Hardy A. Kemp, W. H. Moursund and Harry E. Wright.....	163
Amebiasis among One Thousand Prisoners. Final Report. Alfred C. Reed and Herbert G. Johnstone.....	181
Bacillary Dysentery in Dallas, Texas. Some Notes on the Etiological Agents. Hardy A. Kemp and Sol Haberman.....	191
Granuloma Inguinale. Report of Five Cases. Hildrus A. Poindexter.....	195
Book Reviews.....	203

MAY, No. 3

The Differential Pathology of Dysentery. G. R. Callender.....	207
Studies on the Pathology of Amebic Enteritis in Dogs. Ernest Carroll Faust and Edwin S. Kagy.....	221

Studies on the Effect of Feeding Ventriculin, Liver Extract and Raw Liver to Dogs Experimentally Infected with <i>Endamoeba histolytica</i> . Ernest Carroll Faust and Edwin S. Kagy	235
Carbarsone Rectally in Amebiasis. Hamilton H. Anderson and Alfred C. Reed	257
Untoward Effects of Anti-amebic Drugs. Hamilton H. Anderson and Alfred C. Reed	269
Attempts to Transmit <i>Trypanosoma cruzi</i> Chagas with Ticks of the Genus <i>Ornithodoros</i> . Lawrence H. Dunn	283
Notes on the Reduviid Bug, <i>Eratyrus cuspidatus</i> Stal., Naturally Infected with <i>Trypanosoma cruzi</i> Chagas Found in Panama. Lawrence H. Dunn	291
The American Academy of Tropical Medicine	293
Book Reviews	297

JULY, No. 4

The Development of Tropical Medicine in the United States. Earl B. McKinley	299
Atabrine in the Treatment of Malaria in the Philippine Islands. P. E. McNabb and S. C. Schwartz	309
Transmission of Malaria in drug Addicts by Intravenous Use of Narcotics. James A. Bradley	319
<i>Plasmodium falciparum</i> Welch, 1897. Does Direct Division of the Parasite Precede Schizogony? Hans E. Hingst	325
A Field Experiment in Quinine Treatment. Ralph K. Collins	329
A Neglected Early Reference to the Malaria Vector in the Philippines. Paul F. Russell	339
Attempts to Determine the Amount of Yellow Fever Virus Injected by the Bite of a Single Infected <i>Stegomyia</i> Mosquito. Nelson C. Davis	343
Intestinal Acariasis Due to <i>Tyroglyphus longior</i> Gervais. E. Harold Hinman and R. H. Kampmeier	355

SEPTEMBER, No. 5

The Length of Life and the Rate of Loss of the Hookworms, <i>Ancylostoma duodenale</i> and <i>Necator americanus</i> . J. F. Kendrick	363
A Third Year's Observation in Panama, with Special Reference to Control with Atabrine. W. H. W. Komp and H. C. Clark	381
Flight Range of Anopheles in the Philippines. Second Experiment with Stained Mosquitoes. Paul F. Russell and Domingo Santiago	407
Feeding Habits of Some Venezuelan Anopheles. Rolla B. Hill	425
Susceptibility of Red Cells to Malaria. A Preliminary Note. Paul Eaton ..	431
The Retention of <i>Endamoeba histolytica</i> Cysts under Finger-Nails. Justin Andrews	439
Further Studies on the Effect of Amoebicidal Drugs on Tissue Culture Cells (Arsenious Trithio Salicylic Acid, Carbarsone, Kurchi, Bismuth Iodide, Proparsamide, Vioform). M. J. Hogue	443
Some Observations on the Effects of Tropical Climate under Experimental Conditions. Earl B. McKinley and Trinita Rivera	457

CONTENTS

v

The Anthelmintic Properties of Certain Alkyl Phenols. Lamson, Brown and Harwood.....	467
Relapsing Fever in Texas. IV. <i>Ornithodoros turicata</i> Duges: A Vector of the Disease. Hardy A. Kemp, W. H. Moursund and Harry E. Wright.....	479
An Improved Technique for Mounting Mosquito Larvae. James F. Buckner.	489
Book Reviews.....	493

NOVEMBER, No. 6

Natural and Experimental Infection of <i>Triatoma protracta</i> Uhler and Mammals in California with American Human Trypanosomiasis. Fae Donat Wood.....	497
On the Protective Power of Yellow Fever Sera and Dengue Sera against Yellow Fever Virus. E. P. Snijders, S. Postmus and W. Schüffner.....	519
Laboratory Infections with the Virus of Rift Valley Fever. S. F. Kitchen..	547
The Direct Development of Hookworms after Oral Infection. A. O. Foster and S. X. Cross.....	565
The Dextrose Tolerance Test in Leprosy. Daniel G. Lai.....	575
Book Reviews.....	585
