Regular Membership
Low and Low-Middle Income Countries
$25

LMIC Membership includes all Regular Membership benefits, and is open to all citizens and legal residents of said countries and currently residing in their country of citizenship.

Visit asthm.org to view the list of qualifying Low and Low-Middle Income Countries.

BUILD YOUR PROFESSIONAL NETWORK
Connect with respected leaders in the field. Whether in person at the Annual Meeting, through the Society’s five subgroups or social media, members stay in touch to share the latest data, engage in scientific discourse and collaborate on Society activities.

Become an Affiliate Member of ASTMH

Affiliate Membership offers a cost-effective way for universities, university programs, NGOs, research groups and professional societies throughout the world that have an interest in clinical and basic tropical medicine, infectious diseases and global public health to join and lend their voice to a Society that is a leader in its field.

Visit asthm.org to learn more about ASTMH membership.

Affiliate membership within these organizations and institutions is particularly focused on bringing together students, trainees and early-career professionals, and enabling them to take advantage of ASTMH benefits. For universities and other programs with few resources to devote to advocacy, this category offers the opportunity to join in the messaging of a trusted and respected scientific society.

It is expected that Affiliates around the globe will develop a sense of community around shared goals of global health equity.

BENEFITS OF AFFILIATE MEMBERSHIP
- Membership for the designated university faculty member, program director or NGO representative
- Membership for up to 15 pre- or post-doctoral students
- Read more here for benefits and access to the membership application
**Vision:** A world free of tropical infectious diseases.

**Mission Statement:**
The American Society of Tropical Medicine and Hygiene, founded in 1903, is the largest international scientific organization of experts dedicated to reducing the worldwide burden of tropical infectious diseases and improving global health. We accomplish this through generating and sharing scientific evidence, informing health policies and practices, fostering career development, recognizing excellence, and advocating for investment in tropical medicine/global health research.

**GREEN STATEMENT**
Global climate change directly and indirectly impacts the spread of infectious diseases and threatens the public health progress made since the founding of our Society. ASTMH membership recognizes that our activities, both individual and collective, influence climate change and that we can leverage our strengths to be better stewards of our interconnected planet.

VISIT astmh.org TO LEARN MORE ABOUT ASTMH AND OUR COMMITMENT TO GLOBAL HEALTH.
