

AJTMH Manuscript Formatting Checklist:

- Main documents and tables must be submitted as editable Microsoft Word files. PDFs and RTFs are not acceptable for main documents.
- Title pages are required. Please reference our Instructions for Authors for specific requirements.
- Abstracts must be less than 250 words with no subheads. They should be one, continuous paragraph. Be sure to include your abstract in the main document.
- References must be numerical. Within the text, references must be superscript with NO brackets.
- Continuous line numbers are required.
- Be sure to enter all co authors into our system. And, include co author contact information at the end of the main document.
- Figure legends should be included in the main document. They can be added prior to the references.
- Suggested reviewers must be chosen from the full scientific community based on the subject matter of your manuscript. Suggested reviewers should not work for the same institution(s) as the authors.
