### Clean the house

#### Kitchen and eating area

Prepare a concentrated bleach solution:
- Take a clean bucket
- Fill the bucket with water
- Take … caps of household bleach
- Pour in the bucket full of water

Household surfaces of the kitchen and the eating area are cleaned regularly
- Wear gloves and mask
- With the brush and the cloths, clean the kitchen and the eating area with the solution

Plates, dishes and utensils are cleaned regularly
- Clean plates, dishes and utensils with the solution, the brush and the cloth.
- Let it air dry

With soap and water
- Wash bedding, clothing, and diapers with soap at least 30 meters away from all bodies of water.
- Air dried before reuse.
- Dispose wastewater in latrine or sanitation system
- Wash your hands afterwards

#### Bedroom

Bedroom surfaces are cleaned regularly
- Wear gloves and mask
- With the brush and the cloths, clean the bedroom with the solution

#### Latrine

Latrine surfaces are cleaned regularly
- Wear gloves and mask
- With the brush and the cloths, clean the latrine with the solution

#### 1. Make the bleach and prepare the soap

Bleach solutions must be prepared daily.

Prepare the bleach solutions in a well-ventilated area.

Avoid direct contact with skin and eyes.
